OBJECTIFS

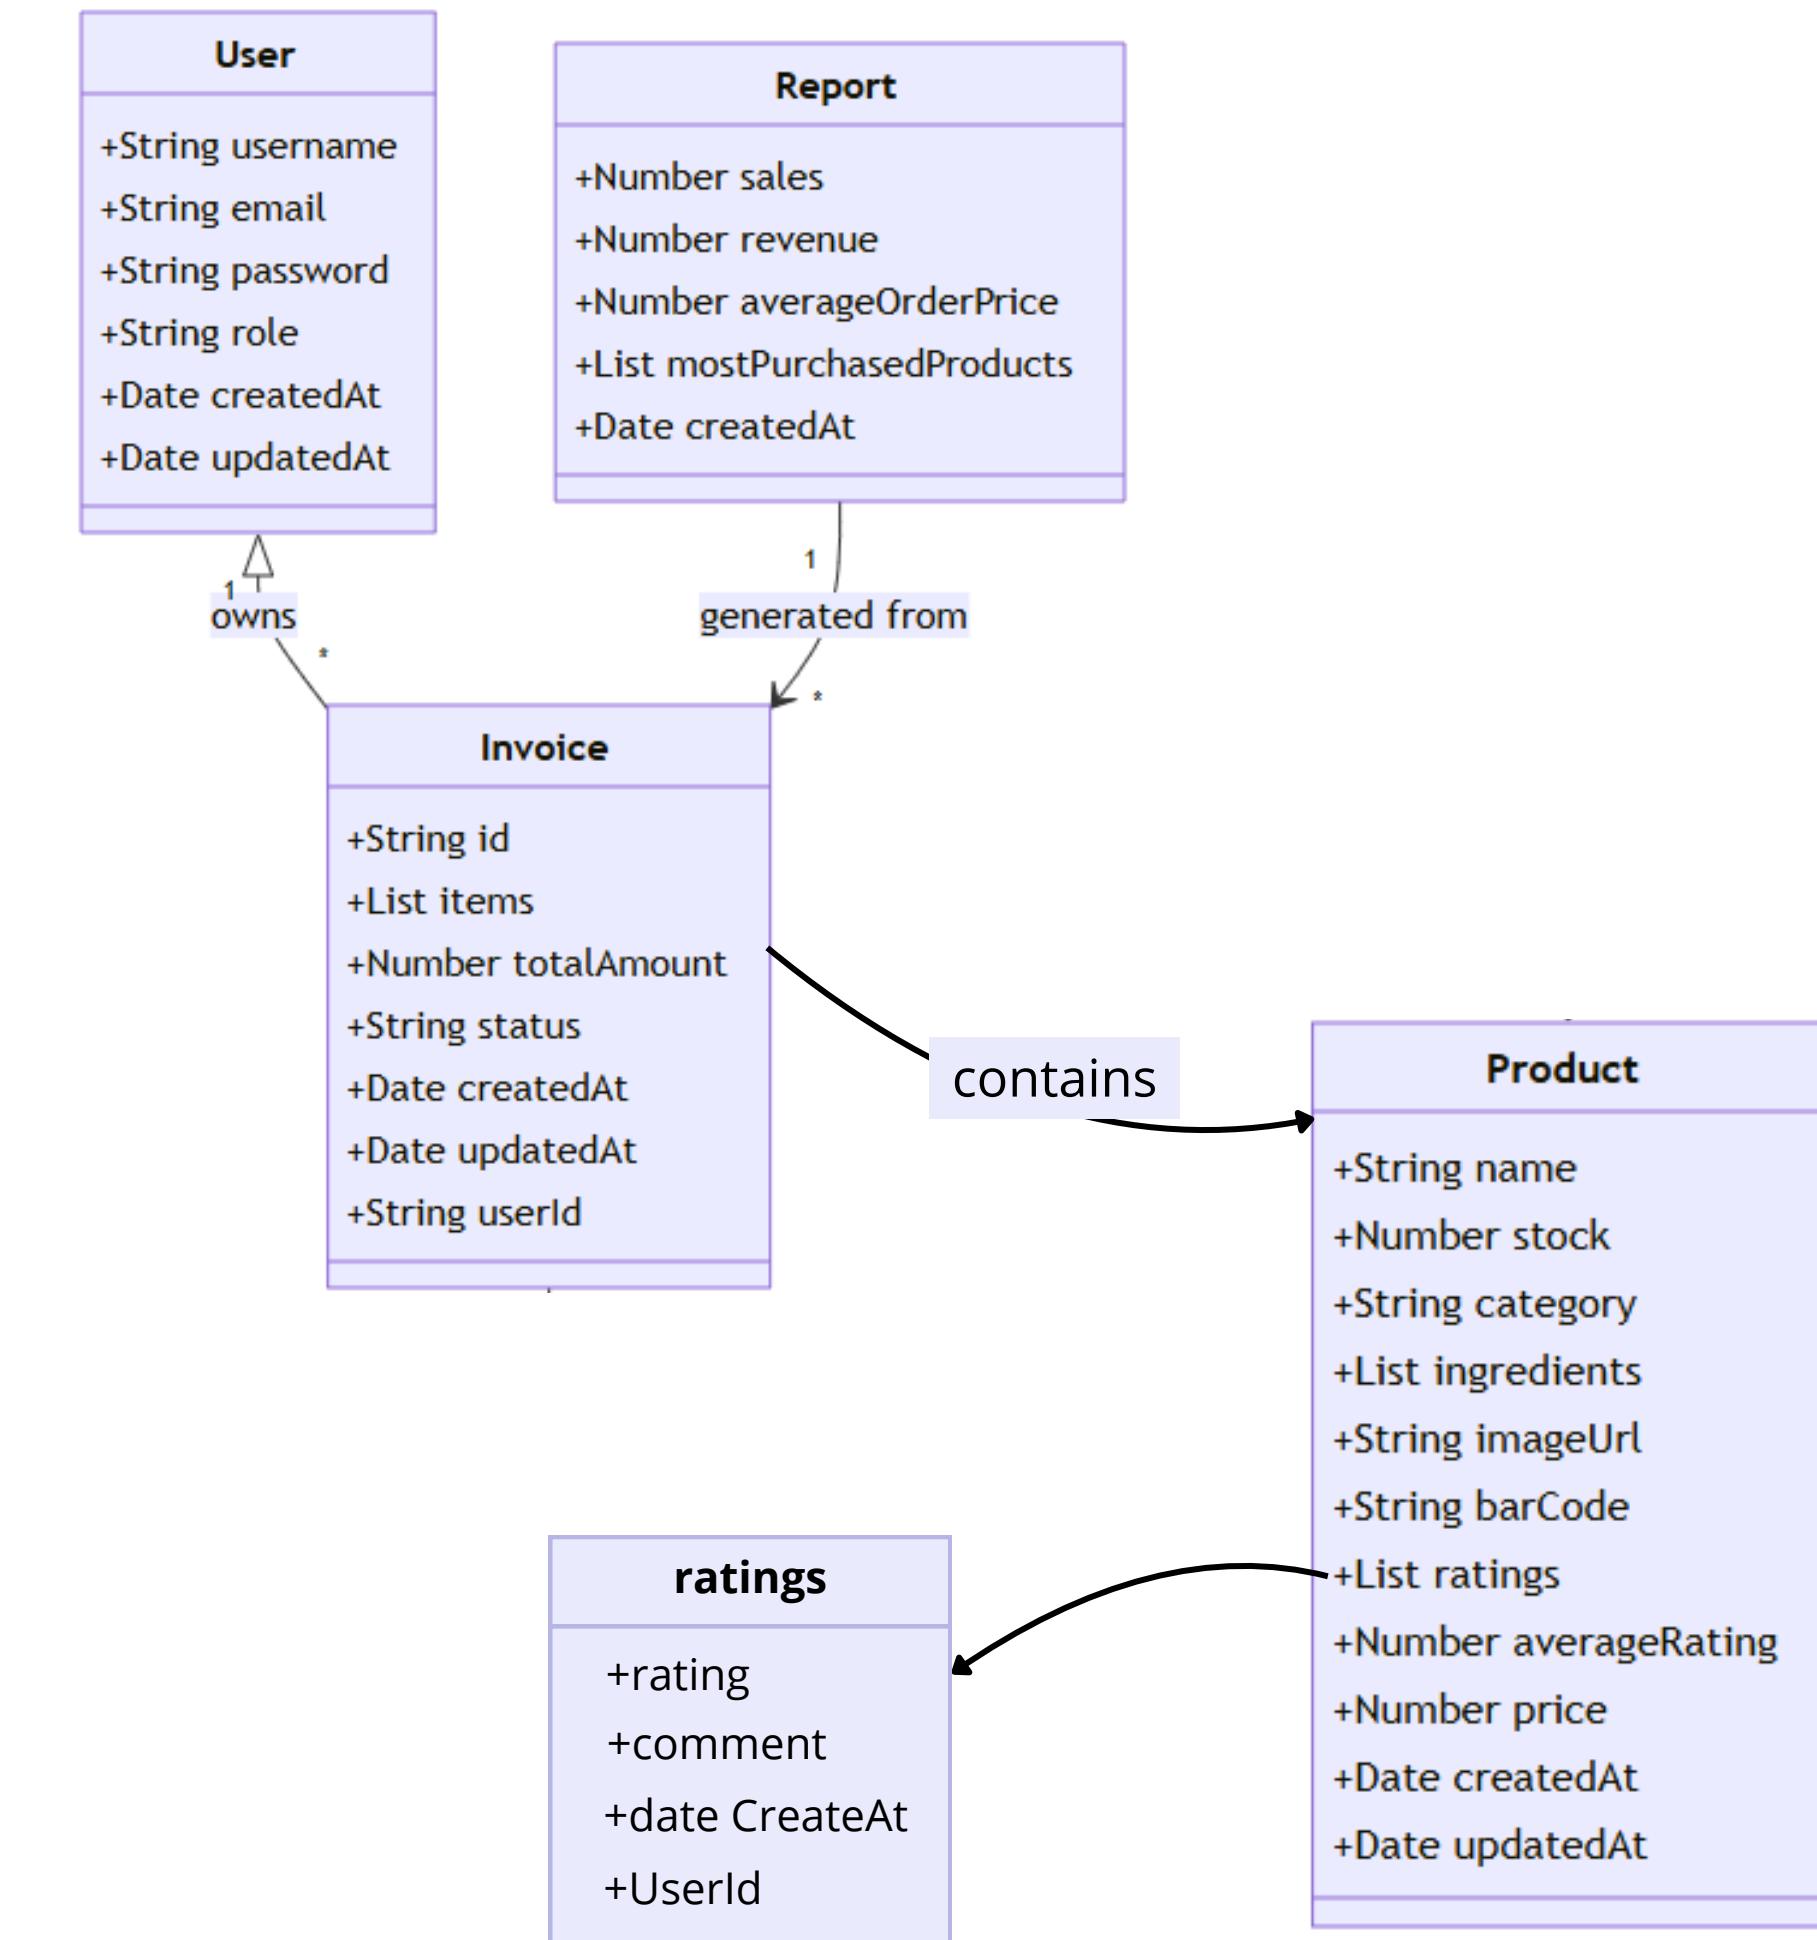

Développer une application professionnelle mobile et web pour la gestion de stocks.

- Interface utilisateur (application mobile) : intégration du scan de code-barres, du paiement via PayPal, etc.
- Interface administrateur (application web) : gestion des comptes, visualisation et gestion des stocks, suivi des paiements, statistiques, etc...

STACKS CHOISIES

UML

A man in a server room, seen from behind, looking at multiple computer monitors displaying lines of code. He is wearing a dark t-shirt and jeans. The room is filled with server racks and equipment. In the foreground, large white text is overlaid on the image.
